US Media kits

Customers who purchase the Microsoft Windows Server 2008 R2 or R2 SP1 operating systems have the right to downgrade their operating system and run an older version of Microsoft Windows Server such as Windows Server 2008 SP2. If you select this option, you will receive a set of OEM DVDs that will enable you to install and run the Windows Server 2008 SP2 operating system on this server. Both 32 bit and 64 bit versions are included in this downgrade kit.
